

Dataset suggestions:

- More than 5 years of data
- Span multiple water bodies.
- Track metals, nutrients, physical parameters (ORP, pH) etc.

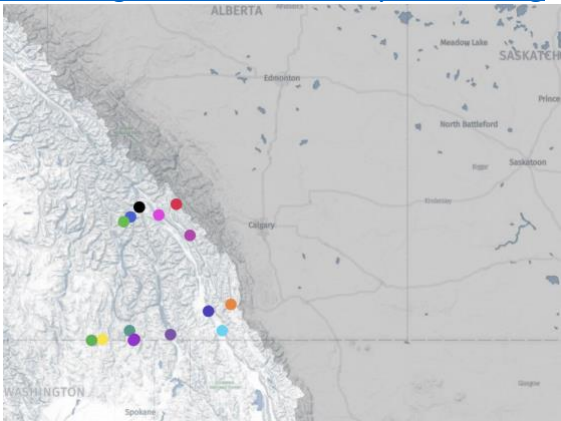

[Maritime Coastal Basin Long-term Water Quality Monitoring Data \(2000-2022\)](#)

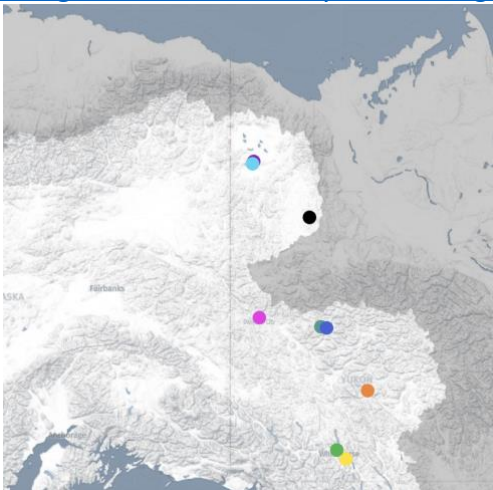

[Pacific Coastal Basin Long-term Water Quality Monitoring Data \(2000-2023\)](#)

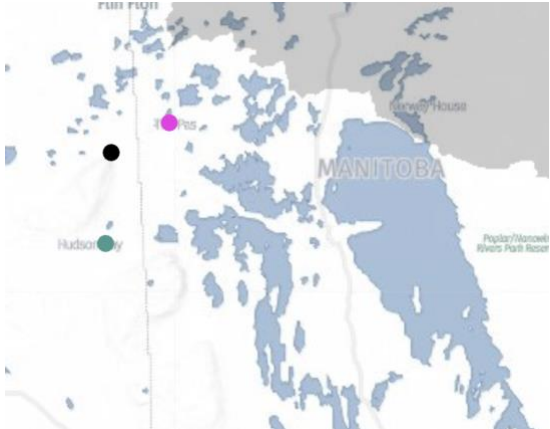

[Columbia River Basin Long-term Water Quality Monitoring Data \(2000-2023\)](#)

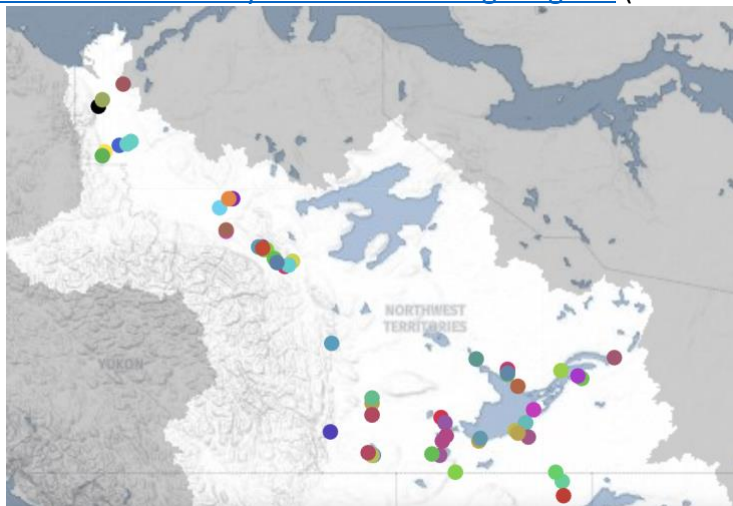

[Yukon River Basin Long-term Water Quality Monitoring Data \(2000-2023\)](#)

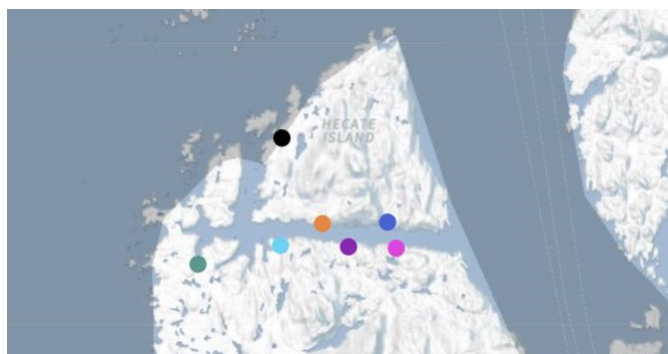

[Lower Saskatchewan Nelson River Basin Long-term Water Quality Monitoring Data \(2000-2023\)](#)

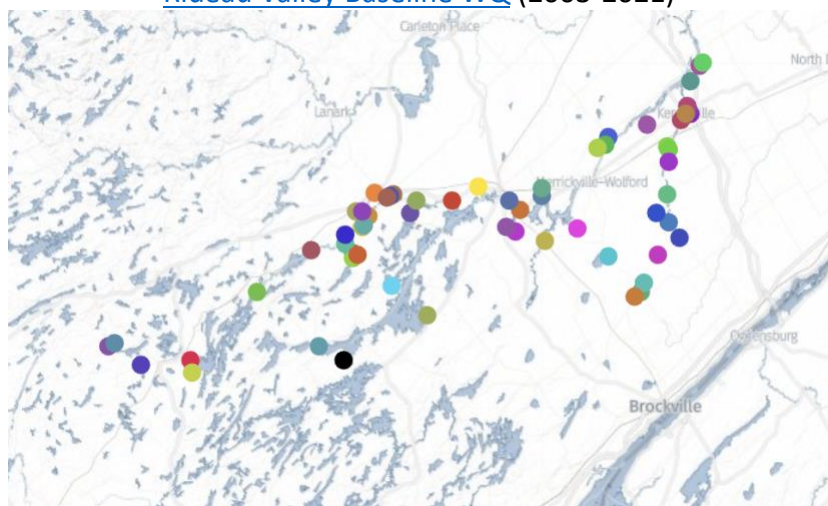

NWT-wide Community based Monitoring Program (2012-2022)

Freshwater grab sampling of streams in the Kwakwaka'wakw Watersheds of Calvert and Hecate Islands, (BC: 2013-2019)

Rideau Valley Baseline WQ (2003-2021)

Finally – The Ontario [Lake Partner Program](#) covers most of Ontario but with only 4 parameters, still a neat dataset to check out!
